COAST PILOT CORRECTIONS

COAST PILOT 7 **47 Ed 2014** **01 FEB 2015**
LAST NM 7/15

Chapter 4—Paragraphs 84.01 to 84.02; read:

^(84.01) As a general rule, the areas of the bay that are not regulated by a speed zone are to be navigated at a safe and prudent speed with regards to Rule 6 of the U.S. Coast Guard Navigation Rules. South San Diego Bay is governed by a 5 mph speed limit and is delineated by concrete pylons. All lagoons are posted as 5 mph zones. These include the Shelter Island Yacht Basin, the America's Cup Harbor, Harbor Island West and East Lagoons and Glorietta Bay. The speed limit for areas near anchorages is 5 mph.

^(84.02) The Navy Port Operation Manager requests that vessels slow to 7 knots when an aircraft carrier is moored in the restricted area (334.865) on the NE side of North Island. This is especially important for heavier/larger vessels as the surge is greater than smaller vessels.
(IDMS 25273) 8/15

COAST PILOT 9 **32 Ed 2014** **01 FEB 2015**
LAST NM 1/15

Chapter 5—Paragraph 752; read:

⁽⁷⁵²⁾ That part of Uganik East Passage on the NE side of Uganik Island is clear of dangers in midchannel except for a flat that extends about 600 yards from the E shore, about 5 miles SSE of Naugolka Point and a rock covered 5¼ fathoms, near the middle of the channel at the S end of the passage. An islet is close to Uganik Island in the bight about 0.2 mile SW of the flat.

(L 1863-2014) 8/15
